

TRUECOMP[®]
COMPRESSOR

Built for Reliability

Truly Next Generation Compressor

TRUECOMP[®]
COMPRESSOR
Built for Reliability

BOREWELL, MINING, CONSTRUCTION AND MANY MORE

About Us

Robust And Reliable TRUECOMP compressors are manufactured under Make in India drive and is promoted by professionals having vast experience of over three decades in the design & manufacturing of portable screw air compressors. We have the best Global technology & talent to bring innovative fuel-efficient high-performance series of portable compressors. We have partnered with some of the leading international brands for compressor technologies.

Truecomp offers the latest, advanced technology to exceed your expectations- even when working in the toughest conditions. Highly experienced team with screw compressor manufacturing expertise is devoted to delivering consistent high Quality & excellent performance compressors. These robust compressors are designed for dependable performance in a wide variety of applications like Borewell, Mining, Crawler/Blasthole Drills, Road Construction & Infra Projects, Blue Metal Quarry, Excavator Attachment, Sandblasting & Jackhammers Drilling applications.

OUR MOTTO

To provide a word class high performance, highly fuel-efficient Screw compressors with available Indian resources to establish a dream of MAKE IN INDIA - MADE FOR WORLD.

Sales & Support

Application

**DTH Drilling, Borewell,
Coal O/B Drilling with Excavator Attachments,
Oil & Gas Explorations,
Sand Blasting,
Tunneling, Quarrying,
Piling & Road Constructions.
Bulk Mining - Blast hole drills**

Nothing is Faster Than Truecomp

Truecomp compressors were officially launched in Excon 2022 exhibition but, the story of development of these compressors goes back beyond 4 years . India has been seeing a high economic growth over the last 3 decades since the beginning of liberalization. This has resulted in a steady upward mobility of labour with a constant pressure for mechanization. Regulations are being implemented to ensure good working conditions keeping in mind safety & health of work force. This progress is visible in mining, construction, infrastructure, agriculture & all across the industries. There is a need for getting work done faster & safely, keeping in mind better fuel efficiency, and lesser pollution.

TRUECOMP portable air compressor was formed with these objectives, so the products driven by innovation and constantly thriving to be energy efficient. In last couple of year, we have designed & manufactured many compressors for different applications & few of our compressors have successfully run for more than 15000 hours.

Diesel Driven Air Compressor for

Borewell | Mining | Construction

These compressors are available in diesel/electric powered version. These compressors are designed & manufactured for various applications like DTH Drilling, Coal Drilling with Excavator Attachments, Oil & Gas Explorations, Piggings, Sand Blasting, Tunnelling, Quarrying, Piling & Road Constructions.

Made for Indian Conditions

DDS Technology in Airnd

Integrated Control System

Highest Ambient Working Temperature Capability

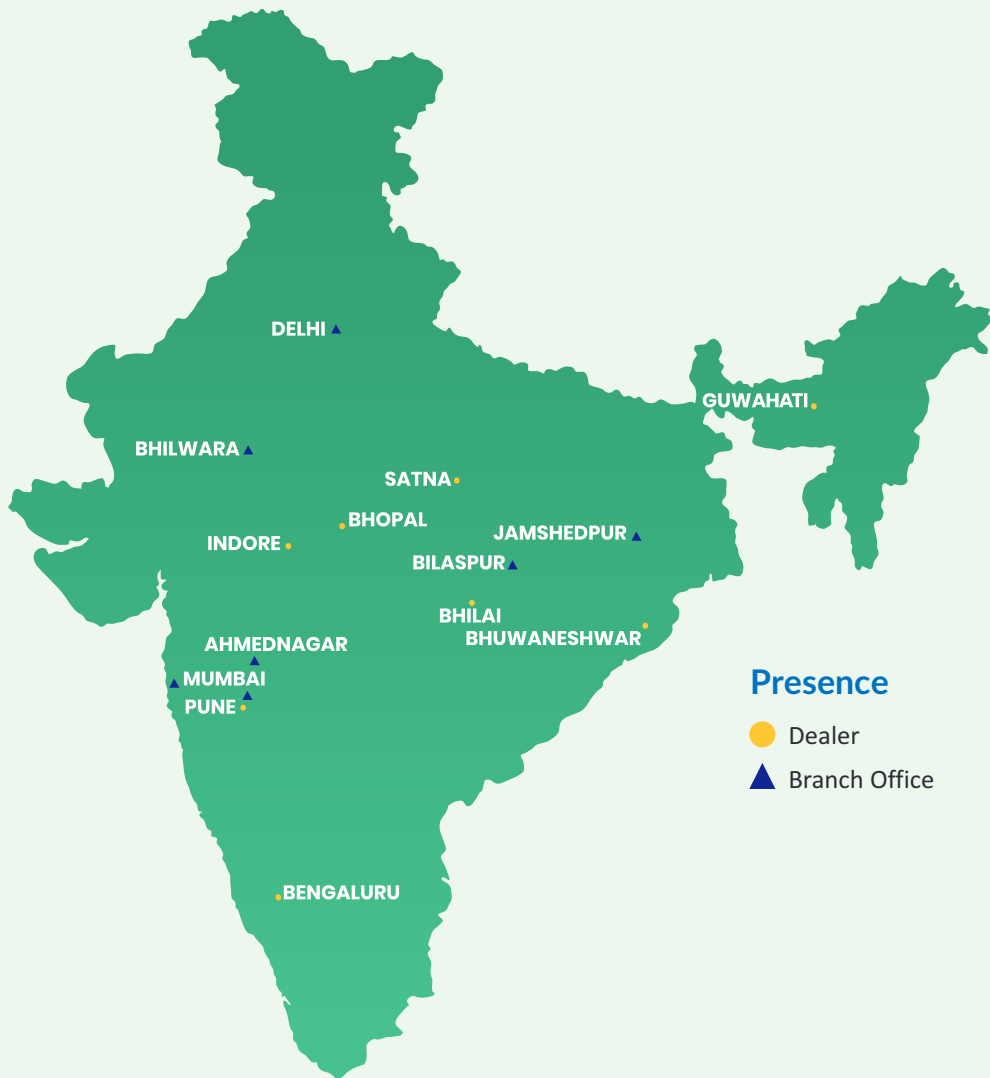

Best in Class Fuel Consumption

Zero maintenance Batteries

Pan India Service Network | Low Service Cost | Easy Serviceability Design

TECHNICAL SPECIFICATION

Compressor	Unit	DS450	DR550	DS575	DB600	DM600	DR600	DH750
GENERAL								
Free Air Delivery	CFM	450	550	575	600	600	600	750
Normal Working Pressure	Bar/PSI	220	200	225	100	165	200	250
Ambient Temperature Range	°C	5 - 52	5 - 52	5 - 52	5 - 52	5 - 52	5 - 52	5 - 54
Fuel Tank (Only in Wheeled)	Liters	250	250	-	250	250	250	-
ENGINE								
Engine Model	-	H6	H6	H6	H6	H6	H6	N6
DIMENSION AND OTHERS								
Overall Dimention Wheeled Tow Bar Extended (LxWxH)	MM	4080 x 1960 x 2200						-
Overall Dimention (Skid/ Rig) (LxWxH)	MM	2850 x 1420 x 1650						4080x1960x2200
Dry Weight of the Package with Trolley (Wheeled)	Kg	3000	3000	-	3000	3000	3000	-
Dry Weight of the Package (Skid/ Rig)	Kg	2700	2700	2700	2700	2700	2700	3500

Presence

- Dealer
- ▲ Branch Office

Sales

Pan India Presence with own Branches, Dealers, Sales Executives and Engineers network to provide best sales support.

Service

Pan India service network team of Experienced qualified service engineer working at major places in country.

Spares

Maintaining huge inventory at Chakan unit to give best spare parts support, also via dealers & channel partners.

Training

Dedicated Team for time bound training on technical, Soft Skill, Developing Leaders for future, 360 degree feedback, Team building, Quality & outbound training etc.

R & D & Design

Highly experienced team to design & built quality compressor with latest innovative ideas & concept.

SALES & SERVICE PARTNER

NAKODA MACHINERY PVT LTD

139, 1st Floor, Patil Plaza, Mitra Mandal Chowk, Pune 411009, (Maharashtra, INDIA).
